

Safety in Transition: Moving from WHMIS to GHS Course

Join training leaders Reg and Stu as they narrate the course and provide an overview of the changes to WHMIS after its alignment with GHS.

ComplyWorks has partnered with Chemscape Safety Technologies, a leader in SDS and hazardous chemical management solutions, to provide the most up-to-date chemical safety training.

GHS is Coming - Are you Ready?

The Global Harmonized System (GHS) legislation has passed in Canada and will be known as WHMIS 2015. Workplaces may start to see an increase in Safety Data Sheets (SDSs) especially from American suppliers.

Did You Know?

- Employers need to provide GHS training to all workers at facilities where hazardous chemicals are used.
- Suppliers are already sending GHS SDSs now and your workers need to be trained to understand them.
- Your workers need to understand both the WHMIS and GHS systems through the transition period.

Offering:

Safety in Transition: Moving from WHMIS to GHS is a comprehensive 65 minute online video course that covers all the essential elements of both WHMIS and GHS. Entertaining, interactive, and engaging, *Safety in Transition* addresses WHMIS and GHS from the worker's perspective.

Main topics include:

- Hazard Symbols
- Hazard Classification
- Product Labels
- MSDS vs. SDS
- Responsibilities

**Safety in Transition is authored by Chemscape under the guidance of an Industrial Hygienist who is certified with the American Board of Industrial Hygiene.*

Tracking and Management of Training

Using the ComplyWorks Management Solution (CMS) a company is able to track the progress of employees' or contractors' completion of courses. Administrators are able to monitor and report on the upcoming expiries of courses tracked through the CMS. Alerts and notifications are sent to remind users regarding upcoming course renewal.

The partnership between Chemscape and ComplyWorks allows for your employees and contractors to have the most up-to-date chemical safety information while efficiently tracking and managing their education and training.
